Lending of Tools & Equipment

Apparently there was a time when members used APOA equipment e.g., tractor, cement mixer, etc., for their own personal use. The Board of Directors has found, in consultation with the APOA insurer, that the Association is not covered should someone bring harm to themselves or others while using APOA owned tools and equipment. Therefore the Association could be liable. As a result, the Board of Directors has adopted a policy that APOA tools or equipment, regardless of whether it came to the Association as a gift or was purchased, shall be used by only by APOA maintenance personnel and volunteers for Association purposes only. This policy takes effect immediately.

Bill Sheehan, Director, Public Works.
